

# Maurice Utrillo

Maurice Utrillo was a self-taught Parisian artist who liked to paint cityscapes - the views around where he lived.

## Cityscapes

You will need: pencil, permanent marker, paint or colouring pencils.

Take a sketchbook outside in the area you live and make some sketches in pencil. Then you can go over in waterproof pen or go straight to paint or colouring pencils. Try to keep the colour very light to start with and add to it gradually for the best effect.

If you don't fancy drawing outside, take some photographs to draw from.

2. Add a light layer of colour.

1. Sketch in pencil, and outline in permanent marker.

3. Add darker tones.
